Programme

6th European User Conference for EU-Microdata

7 – 8 March 2019

Pre-Conference Workshop
6 March 2019

Mannheim, Germany

Organized by
German Microdata Lab, GESIS
in cooperation with Eurostat & cessedata

The 6th European User Conference for EU-Microdata provides an international forum for the exchange of research based on EU-SILC, EU-LFS, AES, CVTS; SES, CIS, EHIS and HBS data. The aim of the conference is to bring together researchers working with EU-Microdata not only to encourage the discussion within the research community on both substantive and methodological issues, but also to offer researchers the opportunity to give feedback to Eurostat. The conference offers furthermore the possibility to discuss needs of the research community with Eurostat. Researchers of all disciplines who are interested in EU-LFS, EU-SILC and/or other European microdata disseminated by Eurostat are encouraged to participate.

The conference is co-funded by the Consortium of European Social Science Data Archives¹ ([cessda](https://www.cessedata.eu/)) and is open to all researchers interested in EU-Microdata. However capacity is limited and registration is required. Please register **for the conference** on our [conference registration web site](#)².

PRE-CONFERENCE Workshop: The 2019 Conference will feature a pre-conference (hands-on) workshop on Wednesday, 6 March 2019 (on the premises of GESIS). The workshop will provide a space for participants to come together with experts from Statistics Austria on working with EU-SILC longitudinal data. Capacity is highly limited and registration is required. Please register **for the pre-conference workshop** on our [workshop registration web site](#)

Please direct any enquiries regarding registration and accommodation to eu-microdata@gesis.org.

For any further questions please contact the local organizers of the conference [Heike Wirth](#) and [Oshrat Hochman](#)
